Adapting for a More Sustainable World

Hand Towels and Wipers with highly efficient Drying Power

KLEENEX® Hand Towels and SCOTT® Hand Towels as well as WYPALL® L10 & L20 are made from AIRFLEX® Highly Absorbent Fabric.

This special technology offers:
- Unique texture - providing a towel with a soft, textile-like feel and appearance
- Open fibre structure - towels dry more efficiently
- The fibres hold more water so fewer towels are needed to dry the hands
- High wet strength - sheets do not fall apart in use.

All KIMBERLY-CLARK PROFESSIONAL® KLEENEX®, SCOTT® and WYPALL® Branded Products aim to use less fibre whilst providing a higher degree of efficiency. This results in a significant reduction of waste.

FSC Certification

Kimberly-Clark works together with leading environmental agencies. The Forest Stewardship Council (FSC) is an international, non-governmental organisation dedicated to promoting responsible management of the world’s forests. An FSC certification provides assurance that a product comes from forests that are responsibly managed for today and the future or contain post consumer recycled fibres.

REDUCE TODAY, RESPECT TOMORROW®

REDUCE TODAY, RESPECT TOMORROW® is our approach to sustainability. It begins with the understanding that the way we use resources today shapes the world of tomorrow.

KLEENEX® Hand Towels and WYPALL® L10 & L20 are made from AIRFLEX® Highly Absorbent Fabric.

REDUCE TODAY, RESPECT TOMORROW® is the KIMBERLY-CLARK PROFESSIONAL® approach to sustainability. It begins with the understanding that the way we use resources today shapes the world of tomorrow. And it has led us to focus on reducing consumption at every stage of the product lifecycle – from design and manufacture to distribution and disposal. Reduction is the key to lowering the environmental impact of our activities as well as those of our customers.
