www.GoRenown.com

Renown® is your source for environmentally preferable quality paper products and dispensing systems.

Renown® Green Seal-certified towel and tissue products are made from 100% recycled wastepaper and are certified by Green Seal, Inc. in Washington, DC. The Green Seal® means our products meet the Green Seal environmental standards for paper towels and tissue (GS-1), making the Renown® Green Seal-certified products among the most environmentally preferable towel and tissue lines available in the away-from home market.

GREEN MOMENTUM

Over the years, changing world dynamics have propelled the green movement with environmental concerns such as global warming, pollution and landfill waste gaining exposure. Over the last twenty years, the federal government has issued various Executive Orders pertaining to greening its facilities and thereby encouraging the private sector to develop products and technologies to further the green movement. Now, consumers have sought ways to minimize their impact on the environment by choosing products that are made from recovered materials or manufactured and transported with methods less harmful to our environment. In essence, consumers are seeking green products.

Unfortunately, not all of the products associated with being green are truly environmentally preferable. Buyers and consumers have to be aware of "greenwashing" which, simply defined, is misleading claims about the environmental benefits of a product. You don't have to worry with Renown® towels and tissue. Most Renown® products are certified by Green Seal, Inc. or contain 100% recycled materials. Renown® products bearing the Green Seal® have been manufactured to strict environmental standards taking the guesswork out of the green evaluation process for the purchaser or decision maker.

GS-1 Green Seal™ Standard for Sanitary Paper Products (Paper Towels and Tissue)

- 100% Recycled (recovered after papermaking process) – may also contain a mix of agricultural plant residue
- Minimum 50% post-consumer wastepaper content for paper towels (exceeds EPA minimum guidelines)
- Minimum 25% post-consumer wastepaper content in bath tissue and toilet seat covers; 15% facial tissue (exceeds EPA minimum guidelines)
- Product performance is consistently measured under controlled and reproducible laboratory conditions and products meet the requirements in the standard with respect to basis weight, tensile strength, stretch, and absorbency
- Hardwound 1-ply roll towel contains a minimum of 133 square feet of product per roll; 58 square feet per roll minimum for 2-ply kitchen roll towels
- Folded 1-ply paper towel contains a minimum of 84 square feet per package
- 2-ply bath tissue contains a minimum of 41 square feet of product per roll and facial tissue contains a minimum of 37 square feet per package
- The papermaking process, including deinking and/or bleaching, for producing paper towels and tissue is processed chlorine free (PCF) and does not contain any additives or contaminants that are carcinogens, mutagens or reproductive toxins
- The papermaking process meets the established limits for water disinfection and optical brighteners
- Papermaking additives are readily biodegradable, except for those noted in the standard
- Paper towels or bath tissue do not contain any added chlorophenolic biocides, fragrances, heavy metals, or ozone-depleting compounds
- Products are manufactured by companies that adhere to social responsibility guidelines and provide fair conditions of employment
- Products are manufactured within established annual water and energy use criteria
- The cores in the roll towels and bath tissue and the facial tissue boxes are made from 100% recycled materials
- Outer corrugated cardboard packaging is recyclable and made from at least 30% recovered material
- Packaging made from plastic is recyclable, or source-reduced by 20% or contains 25% recovered material content
- Packaging does not contain heavy metals, including lead, mercury, cadmium, and hexavalent chromium nor phthalates, bisphenol A, and chlorinated packaging material (for plastic packaging) that have intentionally been introduced
- Printing colorants on packaging do not contain lead, mercury, cadmium, and hexavalent chromium in excess of 100 parts per million (above trace levels)

Paper Products

Renown® Select Green Seal-certified towels and tissue offer the highest quality in 100% recycled products. Made from a superior grade of recycled wastepaper for exceptional brightness, Renown® Select towels and tissue exceed EPA guidelines for post-consumer waste. Featuring consumer-like embossing for absorbency and added softness, Renown® Select is ideal for a variety of green applications.

RENOWN® SELECT CONTROLLED ROLL TOWELS

Renown® Select Green Seal-certified roll towels offer the highest quality in 100% recycled toweling. Made from a superior grade of recycled wastepaper for exceptional brightness, Renown® Select towels contain a minimum of 50% post-consumer waste, which exceeds EPA guidelines. Renown® Select roll towels feature a leaf emboss pattern for absorbency and added softness making them ideal for a wide range of applications.

REN06171-WB (131326), REN06181-WB (281720), REN06183-WB (281722)**

RENOWN® CONTROLLED-USE BATH TISSUE

Embossed for softness, 100% recycled Renown® Green Seal-certified bath tissue contains a minimum of 40% post-consumer waste. Renown® bath tissue features OptiCore® technology, and when combined with Renown® coordinating dispensing systems, ensures maximum use of each roll in the dispenser before advancing to the next roll.

OptiCore® technology features a two-part core for controlled use, which reduces product waste and cost, and offers more than a 25% reduction in core material for more environmentally preferable packaging. The high sheet count offers maximum capacity and reduces maintenance time.

REN06125-WB

RENOWN® CONTROLLED ROLL TOWELS

Renown® Green Seal-certified controlled roll towels are made entirely of 100% recovered fibers and exceed EPA guidelines for post-consumer waste. Renown® Green Seal-certified natural and natural white towels contain a minimum of 50% post-consumer waste.

**REN06130-WB, REN06131-WB, REN06132-WB, REN06133-WB,
REN06180-WB (281719), REN06182-WB (281721)**

RENOWN® PREMIUM CONTROLLED ROLL TOWELS

Renown® premium controlled roll towels provide maximum softness, strength and absorbency. These towels are embossed and offer exceptional brightness.

REN06138-WB, REN06139-WB

RENOWN® PREMIUM BATH TISSUE

Renown® premium controlled-use bath tissue is embossed with a consumer floral embossing pattern for maximum softness and absorbency. Renown® premium bath tissue features OptiCore® technology to ensure the maximum use of each tissue roll in the coordinating Renown® dispensing systems for optimum savings in maintenance time and costs.

REN06127-WB

Dispensing Systems

ELECTRONIC TOUCH-FREE ROLL TOWEL DISPENSER

The Renown® electronic touch free dispenser offers totally touch free dispensing. The towel is stored fully protected inside the dispenser until you request service by passing your hand or arm underneath the sensor. The only thing you touch is your personal towel. This is particularly important in public restrooms, food preparation and healthcare environments where prevention of cross-contamination is a concern.

REN05163-WB, REN05164-WB

HYBRID ROLL TOWEL DISPENSER

The hybrid dispenser offers a unique washroom experience with the benefit of electronic touch free dispensing, as well as the convenience of hands-free mechanical dispensing when desired. The Renown® hybrid operates with or without batteries and has an emergency feed bar. The dispenser is simple to install and easy to maintain.

REN05170-WB, REN05171-WB

MECHANICAL HANDS-FREE ROLL TOWEL DISPENSER

The Renown® hands-free dispenser delivers an 11-inch towel to control usage and promote cost savings. Since there is no need to touch the dispenser, contact with harmful bacteria is reduced, helping to maintain hygiene. The dispenser features reversible hinges for versatile use and a built-in level for easy installation. Dispenser design allows for high-capacity dispensing accommodating up to 1,000 feet.

REN06160-WB (131327), REN06161-WB (131328)

SMALL HANDS-FREE ROLL TOWEL DISPENSER

The small hands-free dispenser features reversible hinges and a small footprint, allowing the benefits of controlled-use dispensing in almost every situation. The small hands-free dispenser accommodates up to a 550 foot roll. With each pull of the slightly exposed towel, the Renown® small hands-free dispenses and cuts a pre-measured 11-inch towel for maximum usage control.

REN06162-WB (131329), REN06163-WB (131330)

BUTTON LEVER ROLL TOWEL DISPENSERS

Fully loaded dispensers have twice the capacity of the average folded towel dispenser. These dispensers deliver a pre-measured 10¾-inch towel to discourage paper waste and give you maximum cost control.

REN05159-WB, REN05160-WB

3-ROLL TISSUE DISPENSER

The Renown® 3-roll system is designed for high-capacity controlled-use dispensing of OptiCore® bath tissue. When one roll of tissue is depleted, simply turn the dial to advance to the next roll. The OptiCore® technology ensures the maximum use of each roll in the dispenser to save maintenance time and costs.

REN05161-WB

SIDE-BY-SIDE 2-ROLL TISSUE DISPENSER

The Renown® 2-roll tissue dispenser accommodates side-by-side OptiCore® rolls for controlled-use dispensing and maximum savings in maintenance time and costs. A locking cover helps to prevent pilferage and waste. Translucent styling allows for at-a-glance refill service.

REN05162-WB

VERTICAL 2-ROLL TISSUE DISPENSER

The Renown® vertical 2-roll tissue dispenser controls waste as it ensures the maximum use of each tissue roll before advancing to the next roll. Designed to accommodate patented OptiCore® tissue, the dispenser reduces paper waste, maintenance time, and costs. The vertical 2-roll dispenser fits where horizontal space is a consideration.
