PROTECTION STARTS WITH PREVENTION.

Protecting your employees and guests from illness is important in maintaining a healthy, productive operation.

Be proactive and help prevent the spread of illness with vigilant hard surface disinfection:

- Choose products effective against the Influenza A virus
- Disinfect frequently-touched hard surfaces often, including the following:
  - Menus
  - Tables and chairs
  - Registers
  - Door handles and push plates
  - Highchairs and booster seats
  - Restroom surfaces
- Increasing hard surface disinfection will help reduce absenteeism among employees
- Provide employees and guests with a safe, clean environment backed by the world-class products and expertise of Ecolab

Talk to your Ecolab Representative to learn how customized solutions can help keep your operation safe and secure.
Ecolab offers a variety of proven disinfecting products effective against a broad range of bacteria and viruses. Your Ecolab Representative can help select products and recommend procedures that are right for your operation.
