Andersen. Uncompromisingly Good!

All Andersen mats feature a 100% customer satisfaction guarantee for the life of the product! We are focused on the best matting innovations for all industries we serve.

In the mat industry, Andersen mats are where design and function come together. Quality isn't compromised to meet a price point. Solutions to your maintenance, ergonomic and safety concerns come first.

Andersen WaterHog mats were the first to introduce bi-level rubber reinforced face nubs that trap more water and dirt and prevent pile crushing, giving you longer lasting, better performing mat protection. Our Comfort Flow, Cushion Station and Traction Tread mats were the first to introduce an anti-microbial agent built into the rubber compound, which prolongs mat usage by preventing bacteria from breaking the rubber composition down. Andersen ColorStar mats were the first to take the fade resistant benefits of solution-dyed technology and make beautiful, fashionable mats- mats guaranteed against color loss for 10 years. The Hog Heaven anti-fatigue mat is proving to be the next generation innovation mat by providing inclusive benefits like ESD, Welding Safe, Anti-Slip, while other mat manufacturers charge extra for each benefit.

The Andersen Company is committed to reducing our environmental impact. We are continually improving our environmental performance as an integral and fundamental part of our business strategy and operating methods. We have reduced waste going to landfills by 80% and recycle most paper, metal, cardboard, plastic, carpet and rubber waste that we generate. Our boilers burn "Yellow Grease" which is used cooking oil collected from restaurants. Our commitment is also evident in our development of over 25 mat styles that contain recycled raw materials including the WaterHog Eco line of mats that contain 100% post consumer recycled PET fiber reclaimed from plastic bottles.

For over three decades The Andersen Company has been America's leader in innovative floor protection systems, industrial safety, anti-fatigue products and high performance entrance matting. So if you are looking for better ways to minimize maintenance, prolong floor surface life, reduce cleaning costs, improve safety or increase worker comfort, ask for Andersen mats... your environmentally-friendly choice.

Maximize Worker Comfort and Benefits

The Andersen Company provides the widest range of top performance matting for all types of foodservice applications. Many of our mats provide the widest range of overall benefits such as, Anti-fatigue, Anti-slip, Anti-Microbial treatment, and Lightweight with added durability, giving you the most value for your money! Our unconditional 100% Customer Satisfaction Guarantee allows you to purchase our matting with total assurance of your happiness!

Maximizing Cleanliness and Safety

The Andersen Company has the most effective, environmentally friendly, complete matting line that will create the safest, cleanest entrance areas versus other matting options. Our product lines feature benefits like UV stable, Solution Dyed fabrics that add to the ease of cleaning and durability of the matting without adding additional cost!

Consider These Facts...

- **91% of consumers selected a business because of its appearance:** Does your entrance make the right statement desired to your customers? Contact us for a free facility survey where we will recommend and guarantee our solutions to your matting needs!
- **70-80% of dust, grime, and dirt in a building is tracked in from the outside to the inside on the shoes of people entering the building. This soil causes safety concerns and permanent damage to floors and carpets:** With soil comes germs and degradation of your facility, making it even more difficult to keep clean. Allow the Andersen Company to show you how to keep more soil and water out of your building.
- **85% of worker's compensation claims are attributed to employees slipping on slick floors:** The added loss of goodwill when guests slip and fall will lead to higher cost than anyone is willing to pay.
- **22% of slip/fall incidents resulted in more than 31 days away from work. Ergonomic injuries are the # 1 reason for lost time claims reported to the safety and insurance boards. Muscular Skeletal Disorder injuries occur to over 600,000 employees that result in recordable injuries and costs exceeding \$15 billion in workers compensation annually:** Your employees are an asset to your business! It pays to keep them healthier on the job.
- **It is estimated that the cost to find and remove a single pound of dirt from a building will run in excess of \$600 in cleaning costs:** Are you doing enough to protect your building investment from taking on excessive aging caused by contaminants being brought into your establishment?
- **A facility can save on average 14% of its cleaning costs and 44% of its cleaning time simply by using mats in the main entrance area:** It is time to start saving money by purchasing the right matting for the right application from The Andersen Company.

The U.S. Green Building Council is the nation's foremost coalition of leaders from across the building industry working to promote buildings that are environmentally responsible, profitable and healthy places to live and work.

The National Floor Safety Institute was founded in 1997 as a non-profit organization whose mission is to aid in the prevention of slip-and-fall accidents through education, training and research.

Lutratur®

Lutratur substrate will not fray, reduces linting, is very heat resistant and creates a strong bond between the rubber and carpet.

SelectGreen Mats – the SelectGreen Mat logo is your assurance that the mat listed is an environmentally friendly product.

Clean Stride™

Features and Benefits

- Available in two versions: Carpet/Rubber Frame with adhesive insert and Rubber Frame only with adhesive insert (Product Number 410). Adhesive inserts are sold separately (Product Number 412).
- As foot traffic passes over the mat, the WaterHog™ surface scrapes larger particles while the adhesive insert captures smaller dust & dirt. With two footsteps on Clean Stride adhesive insert, over 90% of dirt particles are removed.
- Clean Stride mats provide highly effective dirt and dust removal methods for bakeries, factories, computer rooms, warehouses, school gymnasiums, healthcare facilities and more.
- The Clean Stride adhesive insert is comprised of 60 layers of adhesive coated film. Each layer will perform many times before it must be peeled away. Each layer is numbered to ensure one sheet at a time removal and to indicate the number of layers remaining.
- Earth-friendly rubber backing has 15% recycled rubber content. Available with smooth or cleated back.
- Not recommended for wet areas.

ENTRANCE

Waterhog™ Eco Elite Fashion

Waterhog Eco high performance entry systems are the most ecologically friendly products The Andersen Company has produced to date. The use of PET Polyester fiber derived from used plastic drink bottles and rubber reclaimed from used tires reduces landfill waste by over 400 tons annually. It also conserves the natural resources and energy that would normally be required for their production. Every square foot of a Waterhog Eco product eliminates 4 - half liter drink bottles from the waste stream so when a 3x5 mat is used approximately 60 bottles are recycled.

GUARANTEED

Features and Benefits

- Earth-friendly 100% post-consumer PET fabric from drink bottles
- Unique ridged construction effectively stores dirt and moisture beneath shoe level **(A)**
- Exclusive rubber-reinforced face nubs prevent pile from crushing in high traffic areas, thereby maintaining high performance and extending product life **(B)**
- Premium 30-ounce anti-static 100% PET fiber system dries quickly and won't fade or rot. When wet, the rubber-reinforced surface allows water to be wicked to the bottom of the mat away from foot traffic while providing a slip-resistant surface **(C)**
- Earth-friendly rubber backing has 15-20% recycled rubber content and is available in smooth or cleated backing types **(D)**
- Exclusive "water dam" border keeps dirt and water in the mat and off the floor, minimizing slip hazards and floor damage **(E)**
- Highly durable attractive fashion border makes it the perfect choice for indoor or outdoor applications **(F)**
- All Waterhog™ Eco Elite mats are certified slip resistant by the National Floor Safety Institute

Waterhog™ Eco Grand Premier

Sometimes the need for a tough mat extends beyond exceptional performance to include exceptional beauty. Waterhog™ Eco Grand Premier is an amazing mat series with the performance features of our Waterhog Eco Premier and the durable attractive fabric border of our Waterhog Eco Premier Fashion combined with the choice of three different configurations of the face design.

Waterhog™ Eco Premier

When the application calls for outstanding performance and beauty, Waterhog™ Eco Premier is the answer. Waterhog Eco Premier mats combine all of the performance of the original Waterhog™ with an unique diamond-shaped face pattern creating the ultimate visual appearance. Waterhog Eco Premier mats feature a 30 ounce heavy duty multi-denier face yarn that is 50% heavier than the Waterhog Classic. The multi-fiber construction combines thick fibers for scraping with fine fibers for wiping, providing better performance and longer life.

PRODUCT NUMBER 2295

Waterhog™ Classic & Classic Diamond

Perfect for most applications inside or out, Waterhog™ Classic's unique design makes it revolutionary. The rubber reinforced face nubs and waffle design provide crush proof scraping action. The raised rubber "water dam" border traps dirt and water – keeping them off carpet and floors. If you are looking for added beauty, you may consider the Waterhog Classic Diamond – offering all the performance of the Classic but replacing the waffle pattern with a beautiful diamond face pattern.

WATERHOG™ CLASSIC
PRODUCT NUMBER 200

WATERHOG™ CLASSIC DIAMOND
PRODUCT NUMBER 208

Waterhog™ Fashion & Fashion Diamond

Like Waterhog™ Classic and Classic Diamond, Waterhog™ Fashion and Fashion Diamond mats offer the same performance features but with the added beauty of a fabric border for an attractive look that is easy to maintain. This tough as nails mat is the perfect choice for more decorative indoor areas where you want to put your best foot forward.

100%
customer satisfaction
GUARANTEED

Waterhog™ Drainable mats (Product Number 250) have all of the features of the famous Waterhog mats without the rubber "water dam" border, so water drains off easily. See price list for sizes.

WATERHOG™ FASHION
PRODUCT NUMBER 280

WATERHOG™ FASHION DIAMOND
PRODUCT NUMBER 221

Features and Benefits

- Unique ridged construction effectively traps dirt and moisture beneath shoe level **(A)**
- Exclusive rubber-reinforced face nubs prevent pile from crushing in high traffic areas, maintaining high performance and extending product life **(B)**
- Premium 24-ounce anti-static, 100% polypropylene fiber system dries quickly and won't fade or rot. When wet, the rubber-reinforced surface allows water to be wicked to the bottom of the mat, away from foot traffic and providing a slip-resistant surface **(C)**
- Earth-friendly rubber backing has 15-20% recycled rubber content and is available in smooth or cleated backing types **(D)**
- Exclusive "water dam" border keeps dirt and water in the mat and off the floor, minimizing slip hazards and floor damage **(E)**
- Highly durable attractive fashion border makes it the perfect choice for indoor or outdoor applications **(F)**
- Anti-static fiber system has a maximum average voltage of 1.6KV as measured by the AATCC. Mats are safe for use in computer rooms and around electronic equipment
- All Waterhog™ mats are certified slip resistant by the National Floor Safety Institute

Construction

FACE – Molded reinforced textile
 YARN – Solution-dyed polypropylene
 PILE HEIGHT – 3/8"
 FACE WEIGHT – 24 ozs/sy
 BACKING – SBR Rubber (20% recycled content)

FRONT OF THE HOUSE MAT COLLECTION

INTERIOR

Tri-Grip™

Features and Benefits

- Heavy, 100% static dissipative nylon face offers outstanding absorption and durability
- Tight, heat-set, Ultra-Twist™ yarn construction resists packing and crushing. Dirt filters into the mat rather than remaining on top
- Earth-friendly rubber backing has 15-20% recycled content. Resists curling and cracking
- Available in smooth or cleated backing types
- Available with oil and grease resistant 100% Nitrile rubber backing when applications call for additional protection.
- LUTRADUR™ primary substrate creates a strong bond between the rubber and carpet
- Also available with vinyl backing
- All Tri-Grip™ mats are certified slip resistant by the National Floor Safety Institute

PRODUCT NUMBER 105

Colorstar™ Crunch

100%
customer satisfaction
GUARANTEED

Features and Benefits

- Extra coarse solution-dyed nylon fibers in combination with traditional solution-dyed fibers create excellent scraping and wiping action for maximum soil stopping power.
- Solution-dyed yarn is easy to clean. Just rinse with soap and water. You may even use bleach on heavy soil areas to help remove stains.
- High twist and heat-set static-dissipative nylon yarn makes ColorStar Crunch™ safe to use around sensitive electronic equipment.
- Also available with oil and grease resistant 100% Nitrile Rubber backing when applications call for additional protection.
- Earth-friendly rubber backing has 15-20% recycled rubber content and is available in smooth or cleated backing types.
- Intricate tweed-color patterns help hide soil.
- LUTRADUR™ primary substrate creates a strong bond between the rubber carpet.
- All ColorStar™ Crunch mats are certified slip resistant by the National Floor Safety Institute.
