Commercial Matting Collection

The World Of... Apache Mills, Inc.
TireTuff™ Advantages:

• Heavy and Rugged to provide long lasting durability and Incredible Perceived Value!
• We utilize rubber from car & truck tires that are made from the highest quality, purest compounds that yield a flexible, high quality recycled rubber backing.
• State of the art molding process provides pattern definition to enhance both the appearance of the mat AND increase scraping performance.
• Environmentally Friendly – By recycling scrap tires out of landfills, we are improving our environment and transforming waste products into top performing entrance mats.

The latest in commercial mat technology, the TireTuff™ Royale is heavyweight matting designed for busy traffic areas, inside or outside. The molded recycled rubber backing provides heft and durability while the crush-resistant carpet surface effectively removes debris and moisture.

- Dual fiber needlepunch carpet dries quickly and resists staining and fading.
- Bi-level surface scrapes debris from passing shoes.
- Attractive double border design traps debris and moisture in the mat and off the floor.
- Heavyweight recycled rubber backing minimizes movement on carpet and hard floor surfaces.

Apache Spec. #1008

Recommended Uses
- High Traffic Indoor Entrances

** 4’ widths are seamed every 6’ in length

Custom Sizes

Build Your Own Custom Sized Mat!

TireTuff™ Royale mats can also be seamed to create custom sizes to fit oversized entryways, hallways & other custom applications. Mats can be made up to 12’ wide and up to 60’ long. Please order in whole foot increments only for both length & width.

Call for prices on custom configurations (shapes).
Gatekeeper™

Rubber reinforced parquet pattern is functional in both directions and provides a crush-proof scraping surface.

- Raised rubber border traps dirt and water away from indoor carpets and floors.
- Heavyweight carpet holds 1-1/2 gallons of water per square yard.
- Gripper backing keeps mat in place.
- 100% polypropylene tufted carpet resists fading and staining.
- Ideal for high-traffic indoor entrance areas.

Recommended Uses
- High Traffic Indoor Entrances

Absorba Mat™

Classic scraping pattern molded to a rubber backing. The face nubs provide outstanding wiping and scraping performance, and allow soil and water to be trapped beneath shoe level.

- Extra tough molded construction prevents pile from crushing, extending mat life.
- Raised rubber border traps dirt and water within the mat. Holds 1-1/2 gallons of water per square yard.
- Gripper backing minimizes movement.
- 100% polypropylene needlepunch carpet resists fading and staining.
- Ideal for high-traffic indoor entrance areas.

Maxima™

This high-low super tough matting is virtually indestructible!

- 45 oz of extra coarse polypropylene fibers provides aggressive scraping action.
- Distinctive hobnail pattern withstands tough indoor or outdoor elements to retain massive amounts of water, dirt, and snow.
- 100% polypropylene needlepunch carpet has superior stain resistance and outstanding colorfastness.
- Latex commercial backing.
- Superior performance in heavy-traffic areas such as: foyers, lobbies, and indoor or outdoor entrances.

Prestige™

A Grand entrance mat with fashion appeal, the Prestige™ offers style and striking performance.

- Multi-level olefin construction effectively removes and traps dirt and moisture.
- Two-tone heavyweight loop carpet maintains a clean appearance even after extended use.
- Comes in 5 new fashion colors.
- 100% Olefin fibers are stain and fade resistant.
- Slip resistant vinyl backing.
- Ideal for indoor entrances, lobbies or hallways.

Apache Spec. #1013
Recommended Uses
• Indoor Entrances

Apache Grip™
A classic construction in commercial matting, the Apache Grip™ is a machine-washable commercial mat with durable nylon yarn and a nitrile rubber backing.
• Heat-set fibers trap dirt and moisture, and resist matting down.
• Nitrile rubber backing with cleats minimizes movement.
• High quality nylon yarn for outstanding absorption, durability and color fastness.
• Great for indoor high-traffic entrance areas.

Apache Spec. #1014

Lustre Twist™
Our economy version of the Apache Grip, the Lustre Twist™ offers the same high quality nylon carpet but with a vinyl backing.
• Heat set fibers resist matting down and provide outstanding absorption.
• Nylon surface traps dirt and moisture before they are tracked on the floor.
• Slip resistant vinyl backing.

Apache Spec. #1015
Apache Rib™

The best selling commercial mat, the Apache Rib™, combines good performance with great economy.

- Popular rib construction traps dirt and moisture in recessed channels away from shoe level.
- Polypropylene needlepunch carpet is stain and fade resistant.
- Slip resistant vinyl backing.

Apache Spec. #1001

Duro Rib™

Berber style needlepunch carpet provides superior wear and cleaning characteristics.

- Bi-level rib construction provides multi directional scraping action.
- Coarse fibers have a special acrylic coating to improve scraping performance and the life span of the mat.
- Polypropylene carpet is fade and stain resistant, and easy to clean.
- Slip resistant vinyl backing.

Apache Spec. #1003

Chevron Rib™

Attractive herringbone design is designed for high traffic indoor entrances.

- Durable needlepunch carpet in coarse fibers scrapes debris off shoes and provides great moisture retention.
- Bi-level carpet construction traps and hides dirt in recessed areas.
- Polypropylene carpet is stain and fade resistant.
- Slip resistant vinyl backing.

Apache Spec. #1002
Plush Tuff™ Olefin

Top selling Olefin carpet offers outstanding absorption and durability.

- Thick and plush Olefin yarn construction dries quickly and is easy to clean.
- Fade and stain resistant.
- Broad selection of colors.
- Slip resistant vinyl backing.

Apache Spec. #1000

- Indoor Entrances

Standard Tuff™ Olefin

A lighter weight version of the same elegant carpet as Plush Tuff™ Olefin.

- Economical yet elegant, Standard Tuff™ Olefin is designed for any indoor entrance settings.
- Olefin cut-pile yarn construction dries quickly and is easy to clean.
- Solution-dyed yarn prevents fading.
- Slip resistant vinyl backing.

Recommended Uses
- Indoor Entrances
Plush Tuff™ Olefin Solids

Same plush quality Olefin carpet as Plush Tuff™ Olefin but made with bolder solid-color yarns!

Apache Spec. #1016

**The Looper®**

The Looper® is designed for year-round use in rain or snow conditions. Highly versatile, The Looper® is recommended for outside entrances.

- Rugged fortified vinyl coated nylon loops holds up under the most demanding conditions
- Dries quickly as water drains off the mat
- Thick loop construction effectively wipes and scrapes off pounds of dirt.
- Slip resistant vinyl backing

Apache Spec. #1019
**Brush Loop**

Thick, coarse grass yarns provide aggressive scraping action outside the entrance door.

The 1st mat in a complete entrance system.

- Twisted loop, non-absorbent fibers scrape heavy debris from foot traffic and hold dirt below the surface.
- Slip, stain and fade resistant surface with a vinyl backing
- Rugged to withstand heavy traffic conditions
- Available in same color pallet as Brush & Clean™ and Clean Loop™.

Apache Spec. #1005

**Recommended Uses**
- Outdoor Entrances

---

**Brush & Clean**

Dual-fiber construction is the ultimate mat for lobbies and foyers. Coarse fibrulated grass yarn provides aggressive scraping while looped pile Olefin yarn retains moisture.

The 2nd mat in a complete entrance system.

- Linear pattern of dirt scraping grass fibers combined with water absorbing polypropylene fibers provide dual cleaning action in the price of one mat!
- Slip resistant vinyl backing
- Available in same color pallet as Brush Loop™ and Clean Loop™.

Apache Spec. #1006

**Recommended Uses**
- Lobbies & Vestibules

---

**Clean Loop**

Fine Olefin fibers are tufted into a level-loop construction for great water absorption.

The 3rd mat in a complete entrance system.

- Polypropylene carpet is engineered for fine cleaning and completes the drying function.
- Stand-alone performance for any entrances or hallways
- Slip resistant vinyl backing
- Available in same color pallet as Brush Loop™ and Brush & Clean™.

Apache Spec. #1007

**Recommended Uses**
- Indoor Entrances

---

**Entrance Matting System**

Color coordinate a complete entrance area with these three distinctive mats for inside, lobby, and outside use.
Extra Tough Grit Surface
Provides Superior Scraping Action!

CleanScrape

Brand new to the commercial matting industry, the durable TireTuff™ CleanScrape mat provides top-of-the-line scraping performance for any outside entrance settings.

- The most aggressive cleaning mat on the market!
- Innovative grit surface effectively clean shoes while hiding dirt in recessed channels.
- CleanScrape repels water and dries quickly.
- Raised border holds water and debris in the mat and off the floor.
- Extra-heavy recycled rubber base keeps mat in place.
- Patented grit surface provides ultimate anti-slip characteristics in all weather conditions.
- Surface grit is UV stabilized.
- Easy to clean, just shake or hose off!

Apache Spec. #1020

Recommended Uses
• High Traffic Outdoor Entrances

4' x 6' (46.75" x 71")

*Actual sizes listed beside bold nominal sizes
Mission

Great for outside entrances, the TireTuff™ Mission is extra rugged and hard working.

- Molded parquet rib design acts as scrapers to remove heavy dirt and soil from shoes and provides an excellent anti-slip surface.
- Durable recycled rubber construction.
- Extra heavy base keeps mat in place.
- Easy to clean, just shake or hose off!

Apache Spec. #1012

Recommended Uses

- High Traffic Outdoor Entrances

Apache Spec. #1012

Deep Raised Border
Holds water and dirt to keep it in the mat and off the floor!
MegaLoop™ Unbacked

Recommended Uses
• Indoor & Outdoor walkways & entrances

- Designed for use in wet and barefoot traffic areas where drainage and safe footing is required.
- Looped and intertwined vinyl filament surface.
- Unbacked to allow dirt and water to pass through.
- UV stabilized and mildew resistant.
- Ultimate comfort.
- Ideal for pool areas, showers and locker rooms.

MegaLoop™ Backed

Recommended Uses
• Indoor & Outdoor walkways & entrances

- A heavy-duty entry mat designed to stay dry and keep outside or inside entrances safe and clean.
- Special coated vinyl loops scrape dirt and debris.
- Smooth vinyl backing.
- Often used in entrance mat systems.

Apache Spec. #1022

Trooper™

Recommended Uses
• High Traffic Outdoor Entrances

- Ideal for extreme outside conditions, the Trooper™ fingertip construction easily cleans mud or snow off the shoes.
- Heavy-duty rubber construction with built-in beveled edge for added safety.
- Flexible “fingers” scrape dirt, then deposit it below the walking surface.
- Often matched with water absorbing indoor carpets.

Apache Spec. #345

Clean Grip™

- Aggressive nitrile rubber grip runner.
- Nitrile formulation resists common chemicals and animal fat.
- Raised gripper surface pattern provides excellent traction in slippery areas.
- Very flexible – easy to roll up and clean.
- Not recommended to be used for anti-fatigue matting.

Apache Ind. Spec. #332

Entrance Matting - OUTDOOR -
At Apache, we care about people in their work environments. That’s why we design and manufacture our matting products to accommodate the most demanding work areas.

In many industries, workers are required to stand and move around while performing their responsibilities. Recent studies estimate that more than 83% of the industrial workforce has experienced foot, back and lower leg problems. Ergonomic intervention, such as anti-fatigue matting, is a cost-effective measure to help prevent or control this problem. Apache anti-fatigue matting helps reduce fatigue. In addition, matting will improve morale and productivity. Apache matting also provides resolution to other work environment needs such as traction, wear-resistance, fluid and chemical protection, durability, shock-absorption, ESD/Conductive and floor coverings.

Apache’s dedication to quality, technology and mechanization will continue through management review and continuous improvement. Technology such as our NGB (No Glue Bond) demonstrates our commitment to technology and continuous improvement. This process provides a natural fusion-bond of foam and top surface materials together WITHOUT the use of expensive adhesives. This specialized process ELIMINATES the cost of expensive adhesive, post labor to apply and affix the components together, as well as the post overhead and off quality costs.
Supreme SlipTech™

- Provides unparalleled comfort compared to other composite anti-fatigue mats.
- Aggressive NEW 3/16" "RUBBERIZED" durable top surface bonded to our 1/2" ergonomic PVC closed-cell foam.
- Revolutionary RUBBERIZED surface provides IMPROVED TRACTION.
- RUBBERIZED top surface with large industrial Pyramid design provides compression as well as displaying DUAL COMPRESSION-DEFLECTION properties between the top surface and the ergonomic foam.
- RUBBERIZED Wear-surface outlasts other wear-surfaces. [LESS THAN 1% LOSS (Per ASTM D3884; 1000 Gram load; 1000 Cycles)]
- Wear-surface will resist most common chemicals.

- Significant INCREASE in Coefficient of Friction (Traction) wet and dry as compared to the best wear-surfaces in the industry!

NGB NO GLUE BOND
Durable PVC Large Pyramid Pattern Surface

made with enhanced ErgoFlex™ 1/2” foam

Custom Configurations Available: Call for details
• Durable PVC surface bonded with our NGB technology to a resilient anti-fatigue closed-cell PVC foam base.
• Overall thickness 9/16”.
• Industry favorite diamond pattern provides an abrasion and slip-resistant surface.
• Surface will resist common fluids, most chemicals and is nonflammable.
• Optional colored borders available.
• Limited 3-year guarantee against wear and delamination.
• Beveled edges on all mats.

Supreme Diamond Foot™

- Durable PVC Diamond surface **NGB** bonded to a 1/2" Ergo-Flex™ Foam.
- Ergo-Flex™ enhanced foam provides increased durability and resiliency over other foam based products.
- Limited 3-year guarantee against wear and delamination.
- Overall thickness 11/16".

**Recommended Uses**

- Automotive & industrial work cells
- Shipping and packaging work cells
- Machine shops and maintenance areas

Apache Spec. #215

Durable PVC Diamond Pattern Surface

11/16"

made with enhanced ErgoFlex™ 1/2" foam

Ultimate Diamond Foot™

- The same Durable PVC Diamond surface **NGB** bonded to MORE (3/4") of our Ergo-Flex™ enhanced foam that provides even more durability and comfort for the most demanding work areas!
- Limited 3-year guarantee against wear and delamination.
- Overall thickness 15/16".

Apache Spec. #230

Durable PVC Diamond Pattern Surface

15/16"

made with enhanced ErgoFlex™ 3/4" foam

**Recommended Uses**

- Automotive & industrial work cells
- Shipping and packaging work cells
- Machine shops and maintenance areas

Available In Solid Black, Black Yellow and Black Yellow Chevron only

Custom Configurations Available: Call for details
Anti-Fatigue composite mat provides unparalleled NOISE REDUCTION to help achieve MORE dB (Decibel) LOSS in a working environment.

One goal of your Safety Leader is to REDUCE sound (dB) waves in the working environment. The lack of sound reduction or attenuation could lead to ear problems potentially resulting in workers compensation claims and increased costs. Instituting measures to reduce the dB (sound) levels helps provide a much safer and comfortable work environment.

There are many ways to reduce sound:
- Ear plugs/headphones
- Acoustical ceiling panels/Baffles
- Acoustical partitions
- Acoustical barriers or insulation in walls
- Acoustical barrier/insulating Flooring
- Acoustical Matting

- Durable wear-resistant top surface with Lancia emboss fusion-bonded to a 3/8” ergonomic closed-cell PVC foam.
- Top surface matting composite consists of a wear-resistant surface fusion-bonded to a 1.25# per Square Foot non lead-loaded acoustical/NVH Barrier for sound reducing qualities. Total top surface matting is 1.5# per Square Foot Overall.
- Ergonomic closed-cell PVC foam not only provides unparalleled comfort but acts as a decoupler layer against a sound source (the floor).

Marble Foot™
- Marbleized rubber surface \textit{NGB} bonded to a 3/8” closed cell PVC sponge base.
- \textit{NGB} = No Delamination.
- Attractive long lasting durable surface.
- Resilient foam provides anti-fatigue comfort.
- Resists common chemicals and solvents when cleaned regularly.
- Beveled edges for safety.
- Easy to clean surface.
- Limited 3 year warranty against wear and delamination.
  (Not guaranteed against damage from high heels, casters or stool legs)

Apache Spec. #240

K-Marble Foot™
- Marbleized PVC surface \textit{NGB} bonded to a 3/8” closed cell PVC sponge base.
- \textit{NGB} = No Delamination.
- Attractive long lasting durable surface.
- Resilient foam provides anti-fatigue comfort.
- Resists common chemicals and solvents when cleaned regularly.
- Beveled edges for safety.
- Easy to clean surface.
- Limited 3 year warranty against wear and delamination.
  (Not guaranteed against damage from high heels, casters or stool legs)

Apache Spec. #242
Stand-N-Weld™

- Nitrile rubber surface repels sparks.
- Raised grip surface pattern provides excellent traction.
- 1/2" Sponge rubber foam base bonded to a 1/8" solid nitrile rubber surface provides all day relief from fatigue.
- Wear surface will resist common fluids, most chemicals and is nonflammable.

Apache Spec. #805

ErgoFlex™

ErgoFlex™ Technology

- A special formulated foam with an enhanced cell structure provides unparalleled resilience and cushioning for ultimate work comfort.
- Closed-cell PVC foam formulation is extra tough for long lasting performance.
- The next generation foam technology that outlasts traditional foam matting products three to one!
- Designed and manufactured to accommodate the most demanding work environments.
- Handles most common fluids and stays buoyant even at low temperatures.
- Aggressive pebble-embossed surface enhances traction and durability.
- Beveled edges reduce tripping.
- Ergo-Flex™ comes with a 3 year limited warranty.
- Acts as a shock-absorber for fallen tools.

Apache Spec.

#135

Counter Tred

- Heavy Duty 1/2" Open Slot Design Rubber Matting With Nylon Fibers (as tough as a Tire).
- Manufactured with 80% Recycled Rubber Content.
- Superb Drainage For Wet Oily Areas.
- Excellent For Areas Where Fork Lift Or Wheeled Carts Are Used.
- "Ideal Matting For Welding, Machining and Heavy Assembly Areas, Grating and Catwalks.
- Multi-Direction Ribs Provide Excellent Traction And Comfort.
- Counter Tred Is Available In General Purpose Or A Grease Resistant Nitrile Blend.
- Grease Resistant Counter Tred Is Ideal For Machine Shops or Production areas Where oil and Solvents Are Present.

Apache Spec.

#340 (General Purpose Black)  #341 (Grease-Resistant Black)

| Thickness: | 1/2" |

Stock Roll Sizes

- 2' x 22'
- 3' x 22'
- 4' x 22' widths up to 22' in length
**Grid-Step™**

**Available In Two Options**

**Modular Design (Option #1)**
- Purchase 12”x12” interlocking tiles by the case, snap them together to create any size mat.
- Optional 2.5” black or yellow borders available.

**Pre-Assembled Workstations (Option #2)**
- The ideal choice for industrial commercial environments. The waffle-grid design allows fluid to pass through the tile keeping the surface dry and less slippery.
- Includes 2.5” alternating yellow & black border on three sides of mat.

- Also available with an aggressive carbide grit surface for extra traction and safety.
- Tiles are made from 100% recycled plastic.
- Optional colors, borders and special thickness tiles are available – Consult your customer service representative.

Apache Spec. #350

---

**Option #1**
Case of 36 Tiles (case lots only)

**Option #2**

**Wet Area Matting**
Industrial Runners

Solid 3/16" thick PVC diamond surface runner.
Aggressive, abrasion resistant diamond pattern provides improved traction.
Protects floors reducing maintenance cost.
Flexible 100% PVC compound resists grease, oil and common chemicals.

Recommended Uses
- Aisles
- Walkways

Apache Spec. #410

Diamond Runner

Tuff Foot™ Runner

All purpose 1/8" PVC runner matting.
Corrugated or Wide Rib profile improves safety with increased traction.
Protects floors reducing maintenance costs.
Flexible 100% PVC compound resists grease, oil and chemicals.

Apache Spec. #400

Patterns Available
Thickness: 1/8"
- Corrugated
- Wide Rib

Recommended Uses
- Aisles
- Walkways

Stock Roll Sizes
- 2' x 105'
- 3' x 105'
- 4' x 105'
- 6' x 105'

Custom Sizes
- 2', 3', 4' widths up to 105' in length

Tuff Foot™ Runner

- Corrugated
- Wide Rib

Recommended Uses
- Aisles
- Walkways

Stock Roll Sizes
- 2' x 105'
- 3' x 105'
- 4' x 105'
- 6' x 105'

Custom Sizes
- 2', 3', 4' widths up to 105' in length
Apachestat™ Soft Foot™

- Ergonomically styled anti-fatigue matting designed to provide comfort and relief for aching feet and legs.
- Great to use in areas to help prevent damage from static electricity.
- RTT – \(10^7\) ohms
- RTG – \(10^8\) ohms
- 100% Closed cell PVC foam.
- Beveled edges for increased safety.
- Material can easily be cut to fit any work area as needed.
- Optional 15' grounding cord available for optimum results.
- Snap will be installed on all stock mats if requested.

Apache Ind. Spec. #500

---

15' Grounding Cord

- Connects all ESD matting to a building’s electrical ground through a snap placed on the corner of the mats.
- One MegaOhm resistor floor mat dome cap.

---

Apachestat™ SmoothTech™

- Long lasting smooth PVC surface NGB bonded to a 3/8” closed cell PVC sponge base.
- Anti-fatigue mat provides comfort for feet and legs and helps control static electricity in sensitive work areas.
- RTT – \(10^7\) ohms
- RTG – \(10^8\) ohms
- Optional 15' grounding cord available for optimum results.
- Beveled edges for safety.
- Easy to clean surface.
- Limited 3 year warranty against wear and delamination. (Not guaranteed against damage from high heels, casters or stool legs)
- Snap will be installed on all stock mats if requested.

Apache Spec. #510

**Conductive Diamond Foot™**

- Durable electrically conductive PVC surface NGB bonded to a resilient anti-fatigue closed-cell PVC foam base.
- Mat provides comfort for workers while protecting equipment from static electricity.
- Conductive diamond surfaces removes static electricity from workers preventing damage to sensitive electronic equipment and systems.
- RTT – $10^{4} - 10^{5}$ ohms
- RTG – $10^{4} - 10^{5}$ ohms
- Industry favorite diamond pattern provides an abrasion and slip-resistant surface.
- Limited 3-year guarantee against wear and delamination.
- Beveled edges on all mats.
- Snap will be installed on all stock mats if requested.

Apache Spec. #600

---

**Conductive Diamond Runner**

- Same Durable electrically conductive PVC surface as Conductive Diamond Foot™.
- Runner provides slip-resistance in work areas such as aisles and work stations for workers while protecting equipment from static electricity.
- Conductive diamond surfaces removes static electricity from workers preventing damage to sensitive electronic equipment and systems.
- RTT – $10^{4} - 10^{5}$ ohms
- RTG – $10^{4} - 10^{5}$ ohms
- Industry favorite diamond pattern provides an abrasion and slip-resistant surface.
- 5/32” Thickness.

Apache Spec. #605
3/16" Switchboard Diamond Deckplate

- Solid 3/16" thick PVC diamond surface runner.
- Made to protect workers from high voltage equipment.
- Aggressive, abrasion resistant diamond pattern provides improved traction.
- Dielectric strength up to 30,000 volts (VAC).
- Recommended maximum usage - 3,000 volts (VAC).
- MIL-DTL-15562-G Type 2.

Apache Spec. #700

1/8" Switchboard Smooth

- Long lasting Smooth 1/8" thick PVC runner.
- Made to protect workers from high voltage equipment.
- Easy to clean surface.
- Dielectric strength up to 30,000 volts (VAC).
- Recommended maximum usage - 3,000 volts (VAC).
- MIL-DTL-15562-G Type 2.

Apache Spec. #702

1/4" Switchboard Corrugated

- Durable 1/4" PVC corrugated runner improves safety with increased traction.
- Made to protect workers from high voltage equipment.
- Easy to clean surface.
- Dielectric strength up to 30,000 volts (VAC).
- Recommended maximum usage - 17,000 volts (VAC).

Apache Spec. #700
TackyMat™
Clean Room Entrance Mat

- Tacky Matting is designed to attract and contain dust and dirt.
- Tacky surface effectively removes dirt from shoes and casters.
- Anti-Microbial surface is perfect for clean rooms, labs, surgical rooms, and medical offices.
- Simply peel off sheet when contaminated.
- Available in 30 or 60 disposable sheet pads with or without a tray.
- Refills available and tray is reusable.
- Refill sheets numbered as a reorder reminder.
- Choose either white or black tray, and gray or white adhesive pads.

KneeSaver™
Kneeling Mat

- Gravel, Grating, Wood, High-Density Metals/Alloy's, Concrete, Asphalt.
- 1” thick closed-cell Nitrile blend, resilient foam.
- Material is non-conductive.
- Minimal water absorption.
- Compression Set 10% max.
- Providing Knee Saver helps increase worker’s productivity.
- Lower’s Workmans Compensation Claims.
- Reduces knee pain & lower back stress.
- Shows workers that YOUR COMPANY cares about them!
- Ergonomic & Safety committee labor-relations bargaining tool.
- Flammability, Self-extinguishing material.
- Built-in carrying handle. (Removable insert becomes a hand stress-reliever)
- Hangs up easy for storage or merchandising.
- Lightweight.
- Easy to maneuver in and around working areas.

Apache Mills offers several matting accessories to help distributors meet some of the special needs of its customers. For extra assistance with these accessories, please call our Customer Service Department.

**Apache Adhesive**
An adhesive developed especially for use with Apache Nosing for long lasting bonding to the borders of our mats. Sold by the quart.

**Non-Skid Backing**
Our Non-Skid backing can be applied to many mats to help reduce movement and improve work place safety. Sold by the square foot.

**Apache Lok II**
A peel-and-stick, double-sided 1” thick tape with interlocking “teeth” will help vinyl-backed mats stay in place. Sold by the linear foot.

**Apache Nosing**
For use when creating special sized mats. Our black vinyl nosing can be glued to the borders of our carpet matting to guarantee that your customer gets their mat exactly how they want it. Available in sets of two 50’ rolls.

**Grounding Snap**
- Snap can be added to ESD matting so that a 15’ Grounding Cord can be applied.

**15' Grounding Cord**
- Connects all ESD matting to a building’s electrical ground through a snap placed on the corner of the mats.
- One MegaOhm resistor floor mat dome cap.
