Cast Aluminum Pipe Wrenches

NEW

With the addition of the Cast Aluminum Pipe Wrench, IRWIN® VISE-GRIP® now offers a full line of professional grade pipe wrenches. The Cast Aluminum Pipe Wrench is 40% lighter than cast iron, making it easier to maneuver when working. The heat-treated drop-forged jaw and heavy-duty housing provide the durability you have come to expect from VISE-GRIP. For quality and performance from the name you've trusted for over 80 years...discover the advantage of VISE-GRIP.

Hammer Head

- Unique design provides flat surface for hammering

Easy-Spin Adjusting Nut

- Heat-treated for durability

**40% LIGHTER
THAN CAST IRON**

I-Beam Handle

- Wide design provides better weight distribution

Drop-Forged Jaw

- Heat-treated to resist distortion or breakage
- Broached teeth provide tremendous bite

Heavy-Duty Cast Aluminum Housing

- 40% lighter than cast iron
- Easier to maneuver
- Less fatigue
