J-Fill® Dispensing Systems

The most complete line of dispensers available.
It’s the one that does it all.

The Benefits of J-Fill® Dispensing Systems

• Patented J-Fill® Bottle
  • The Spill-Tite™ design virtually eliminates spills, leaking or being able to manually dilute concentrates.
  • Metering tip on every bottle ensures precise dilution, reduces maintenance and eliminates possibility of tampering with dilution ratios.
  • The 2.5 Liter J-Fill package design is small enough and light enough to carry.
• Simple and Easy to Use
  • Push solution, or squeeze a trigger and the J-Fill dispensing system will dispense accurate cleaning solution with no measuring, mixing or mess.
  • Fill bottles, buckets, sinks and floor care machines remotely from a central location quickly and accurately.
  • Number and color coded labels that are visible through window for easy product identification.
• Superior Performance and Versatility
  • The patented J-Fill® Eductor® and tip configurations have the ability to dilute from a range of 1:16 to 1:1024 with precision that no other company can replicate.
  • The J-Fill platform has 40+ products available for cleaning all areas in a facility including the kitchen.

Environmental, Sound & Cost Effective

• Super swings® concentrates reduce packaging and solid waste disposal/recycling. One J-Fill bottle at 125 mL generates 70% of waste in cleaning solution.
• Requires significantly less storage, handling and packaging cost per gallon than most conventional packaging.
• Not only is the J-Fill package made from some recycled plastic but the entire package is 50% recyclable when all the chemicals is withdrawn from the bottle.

J-Fill® QuattroSelect™

The most advanced wall-mounted, locking dispensing system. QuattroSelect™ dispensing system allows you to choose from four different products with the turn of a dial. Simply select the product you desire, choose one-handed low flow bottle fill or point of use bucket activation and dispensers ready-to-use solutions into spray bottles, buckets and automatic scrubbers. The lockable cabinet helps eliminate unwanted canned removal.

J-Fill® Duo™/MC

Dispenses two different products at the touch of a button. Durable, corrosion resistant, isolable powder-coated steel cabinet helps prevent tampering and pilferage. Choose from two products with the press of a button. One high flow and one low flow are factory set but can be changed to two high or two low flow. Select the dynamic Duo of products and clean with ease.

J-Fill® Uno™/MC

Dispenses one product at the touch of a button. This slim and durable locking dispenser is perfect for special cleaning needs in any area of the facility. The Uno allows you to dispense kitchen care product with a push of a button.

J-Fill® Hand Held Portable

Take J-Fill where you need it with the portable hand held unit.
J-Fill® Hand Held Portable consistently delivers accurate dilutions anywhere you need them. Simply select the product you desire, attach the Spill-Tite™ cartridge, hook-up to a water supply and press the trigger. Dispenses into bottles, buckets and automatic scrubbers. Can be used with multiple products.

J-Fill® Single Dispensing Station

The J-100™ offers the flexibility of high flow bucket/desk filling or low flow bucket filling. Features safe chemical management, accurate dilutions and cost savings. Can be joined together to create a multi-unit dispensing system.

J-Fill® Sink Mizer™/MC

Three compartment sink solution for manual warewash. The J-Fill Sink Mizer allows you to dispense and pair convenient and numerous directly into the sink. The dispenser is color coded to match the product and has locking buttons for easy sink filling. J-Fill TM/MC dispensers also available for kitchen spray cleaning.
